

I Got You

Devon Cole

If you need a drink, then I'm buying
If you need a minute to think, I got time
If you need a shoulder, come over you, it's all good
Baby cry on mine

Mister boss man's on your back
You left your laptop in the taxi cab
And you're crying in the park on your break
Mmm
Your boyfriend can't talk you down
He doesn't understand what you're all about
But you've gotten kinda used to the taste

Don't think twice
You don't gotta be alone with the highs and the lows
It's alright to need somebody
Mmm

If you need a drink, then I'm buying
If you need a minute to think, I got time
If you need a shoulder, come over you, it's all good
Baby cry on mine
If you need a hand, I got two
If you're in the mood to dance, I got moves
If you need a night in, a night off, a phone call
Baby I got you

Head bangin' on the highway
With the tunes too loud
That was some kinda hideaway
And I miss it now
But you're still keepin' my secrets
I'm still stichin' your clothes
I'm still lettin' you know when I made it home

So don't think twice
You don't gotta be alone with the ebbs and the flows
It's alright to need somebody
Mmm

If you need a drink, then I'm buying
If you need a minute to think, I got time
If you need a shoulder, come over you, it's all good
Baby cry on mine
If you need a hand, I got two
If you're in the mood to dance, I got moves
If you need a night in, a night off, a phone call
Baby I got you

I got you
You
I got you
Baby I got you

If you need a drink, then I'm buying
If you need a minute to think, I got time
If you need a shoulder, come over you, it's all good

Baby cry on mine
If you need a hand, I got two
If you're in the mood to dance, I got moves
If you need a night in, a night off, a phone call
Baby I got you

I got you
(I got) You
I-I got you
Baby I got you
(I got you, I got you)
I got you
(Ah) You
Yeah if you need a night in, a night off, a phone call
Baby I got you
