

# Superglue

Devon Cole

I miss you in your corduroys  
I miss you sittin' in my kitchen talkin' shit about the boys  
I miss breathin' in your air  
I hate the way you weigh on me  
I hate the way you weigh on me when I don't mean a fuckin' thing  
I find it a bit unfair

Was I so easy to forget  
On second thought don't answer that  
How could you wish me all the best  
When the best I had was you  
You're meeting people right and left  
Skipped over me right to the next  
You left my heart a sticky mess  
Stuck on us like Superglue

I've been sentimental, crying at the dental  
Sleeping with a belly ache  
You got into keto, took a trip to Rio  
King of how to be unphased  
I could hit erase like Mr. Clean  
I could write it off like graffiti  
Gotta take a page from you baby  
So tell me

Was I so easy to forget  
On second thought don't answer that  
How could you wish me all the best  
When the best I had was you  
You're meeting people right and left  
Skipped over me right to the next  
You left my heart a sticky mess  
Stuck on us like Superglue

Blamed it on timing  
You're such a liar  
I know I came into this too strong  
'Cause I'm a disaster  
But it doesn't matter  
I'll find someone else to scare off

Was I so easy to forget  
Was I so easy to forget  
Babe  
How could you wish me all the best  
How could you wish me all the best
