

Come on empty your conscience and come clean for me  
I would empty my pockets, times are lean you see  
And they got us right where they want use  
We're just cogs in the machine  
Come on empty your conscience and come clean for me

Oh tonight we'll sleep the sleep of angels  
We won't have time  
I can't keep (on flight with danger [?])  
And it ain't right to be battened down like strangers  
For tonight you will sleep just like an angel

Oh the look on your face is just priceless  
Oh lord what have I done to invite this?  
Oh the look of this place must be hopeless  
I was hoping that you wouldn't have noticed

And where we ain't going  
There ain't nobody, nobody, nobody knows it  
Like the dog in the story  
That just keeps going, and going

Oh tonight we'll sleep the sleep of angels  
We won't have time  
I can't keep (on flight with danger [?])

And it ain't right to be battened down like strangers  
For tonight you will sleep just like an angel  
Oh the laid a maze before us  
It's come to my importance  
As long as you ignore us  
We'll have days lost in the forest

And the hope of your love is  
The hope of [?] is enormous  
We'll light signal fires and wave our arms  
We'll make our way before us

C'mon wrap up your sorrows  
In the blankets that we borrowed  
And we'll march on like good soldiers  
Into a world that's getting colder and colder

And near this time tomorrow, all our troubles will be over  
C'mon wrap up your sorrows  
Come cry ourselves...

Tonight we'll sleep the sleep of angels  
We won't have time  
I can't keep (on flight with danger [?])  
And it ain't right to be battened down like strangers  
For tonight you will sleep just like an angel
