There's this place that I know
where they say everything slow
You are the one I would take with me
It's the perfect place to be with a girl like you
if you wanted to we could leave right now
It's the perfect time
It's the perfect day we should get away come on let's go

Did you mean what you said?
cause it sounded so true
is real really dead
cause it looks so damn good
Read you loud and clear
I know I'm all done hear
let's go
