

## Second Chance

(whistling)

Well it was just like  
You said it would be  
No big secret here  
There's no mystery

In fact it was called  
And we got it from both ends  
Now I know they're never  
Gonna take us back again

It's where I watched you grow  
It's where you spread your wings  
I don't have no control over these things

Oh your lips are like home  
And your arms are like old friends  
Now I know they're never gonna  
Take me back again

Now I've got nothing but love  
To give all day long  
I get none in return  
Just the same old sad song  
I've got no one to blame  
Cause I got it all wrong  
I've got nothing left to give you  
Just love all the day long

(whistling)

Well it feels just like  
It was yesterday  
When you took my hand  
You said "Let's just pray  
That before we get old  
Before we reach the bitter end  
That you and I will soon enough  
Be together again

So I let you go

So I cut you loose  
Back into the wild  
You've been reintroduced  
Oh but I should have known  
With how quick you've outgrown your friends  
That you were never gonna  
Make it back this way again

Now I've got nothing but love  
To give all day long  
I get none in return  
Just the same old sad song  
I've got no one to blame  
'Cause I got it all wrong

I've got nothing left to give you  
Just love all the day long

(whistling)
