

You were gonna be my rock
My solid ground
That I'd build a life on
You were gonna lift me up
The bottom dropped out
And I can't rely on you
Anymore

You fell like quicksand
Giving way under my feet
The harder I try
To make things right
The further down I sink
I can't get out
I'm in too deep
The walls are caving in on me
Mercy come set me free

I was gonna be your strength
But I have none left
I fought your demons
We were gonna clean the slate
Forgive and forget
But I can't believe in you
Anymore

You fell like quicksand
Giving way under my feet
The harder I try
To make things right
The further down I sink
I can't get out
I'm in too deep
The walls are caving in on me
Mercy come set me free

You fell like quicksand
Giving way under my feet
The harder I try
To make things right
The further down I sink
I can't get out
I'm in too deep
The walls are caving in on me
Mercy come set me free
