

## Quicksand

Devour The Day

You were gonna be my rock  
My solid ground  
That I'd build a life on  
You were gonna lift me up  
The bottom dropped out  
And I can't rely on you  
Anymore

You fell like quicksand  
Giving way under my feet  
The harder I try  
To make things right  
The further down I sink  
I can't get out  
I'm in too deep  
The walls are caving in on me  
Mercy come set me free

I was gonna be your strength  
But I have none left  
I fought your demons  
We were gonna clean the slate  
Forgive and forget  
But I can't believe in you  
Anymore

You fell like quicksand  
Giving way under my feet  
The harder I try  
To make things right  
The further down I sink  
I can't get out  
I'm in too deep  
The walls are caving in on me  
Mercy come set me free

You fell like quicksand  
Giving way under my feet  
The harder I try  
To make things right  
The further down I sink  
I can't get out  
I'm in too deep  
The walls are caving in on me  
Mercy come set me free
