Don't want chu I want her

Poppin bottles on the couch tryna splurge  
But when the leave they know that they pockets hurt  
Was finna sign but then my life took a turn  
But change the subject I ain't tryna get blurred  
Foot up on the gas

Aye  
I'm out on bail but I still can't believe I might leave my life in 12 jurors  
hands  
Listen God and please forgive me when I ask  
If this was something meant for me and my plans  
Aye  
I got my lawyers telling me it's like a shot up in the dark but I think I'm  
finna blast

And since a youngin I been wildin I been thuggin

And went through back and forth and getting mad again  
Feeling like I'm going bad again  
I'm riding with the burner in the stash again
