

1 Am

Devvon Terrell

I can't find my way home
Can you find me
Love hate sex enemies
All things I bleed
All the good times never last
Please set me free
Cause I've been honest too real
I'm losing me

Now where do I go from here
Cause nobody really cares
Who are these faces and why do they always stare
Watching me drowning in all my fears
Take me for granted and leave me here
To die
I'm living a lie
That will change
That will
Devvon

Now I see this shit
In the dark I'm hella heartless
Ain't no fuck way that we going back
Where we started
Life is such a bitch
And I throw that hoes on a leash
Never let em gas me I'm riding this shit on E
That's why the smoke is free and I got nothing left
I'm walking in the room and hearing silence
Different kind of precedents
Sleeping on you like Biden
Never pressed
Rushing to the top because I know my place
Father left me here in the dark
And now the sun is a wave
Bitch I got a million fucked problems
Not one of you nigga is here to solve em
What good is sitting at the top
If all you think is falling
But mama always said if you gon do it go all in

It's 1 in the morning
I'm not asking for your help
It's 1 in the morning
Thinking about myself
1 in the morning
It's 1 in the morning
It's 1 in the morning

Devvon

When the sun goes down
