Devvon Terrell

You the realest thing I've seen in a while
From your fashion to your taste in style
I just wanna know everything about ya oh
To the point where you don't even say a word to me cause I know

Everything you want and all you'll ever need from me
How a nigga stroke in your seven seas
To the point where I'm just feeling what I know you need from me
I just wanna see whatever you see
I can read your mind cause I know you
I do not exist if there is no you
Don't want you to feel like I control you
Do you notice how well I know you

At this pace
I'll know all of you in time
This is not a race yea
Not black or white I'll take my time
At this pace oh
I'll know all of you in time
It's not a race oh
Not black and white I'll take my time time

You know that I got you at the top of my mind
Know what you want for birthdays
And what makes you cry
I can hurt us both if I self destruct
But that can never happen if we keep the love up oh
Cant ya tell that I've been thinking bout you
You know before I was too immature but now you'll get

Everything you want and all you'll ever need from me
How a nigga stroke in your seven seas
To the point where I'm just feeling what I know you need from me
I just wanna see whatever you see
I can read your mind cause I know you
I do not exist if there is no you
Don't want you to feel like I control you
Do you notice how well I know you

At this pace
I'll know all of you in time
This is not a race yea
Not black or white I'll take my time
At this pace oh
I'll know all of you in time
It's not a race oh
Not black and white I'll take my time time
