

Cease And Desist

Devvon Terrell

You got your phone face down, while we at the table
I don't want no cause of seen that's just me, woah
Want no confrontation, I just take it
We would never had problems if I don't make it, woah
Key in my crib, I ain't mess with none of these girls, yeah
Do you believe me or would you rather me lie, woah
Face down means something, girl never nothing
How do I tell her, I know I got her just man up
Like "Baby what's up?", "Is it really just us?"
Or is more to the story, open up don't ignore me
It's hard for me, to I don't know the truth
I'm scared of you, what you might do

Might break me in pieces
You know that I see it, yeah woah

Cease and desist, woah
Rule out before I dip dip, yeah
Cease and desist, yeah
I don't want no other
Please don't make me say
Cease and desist
Rule out before I dip dip, yeah
Cease and desist, yeah
I don't want no other
Please don't make me say, yeah

I ain't no sucker, but, not gonna lie
I pulled up with shit that I don't never ever deal with
That's how I know that I'm caught up, with you
If it was any other girl than I would have made a move
If I bring it to you, you would propably tell me that I'm just buggin'
Call me down, talkin' all that love shit
Let me feel real good, like nigga this us
But how long could this gone, before I spaz out
I'm so damn confused, but I know the truth
I'm so compromised by my feelings
What good is a foundation ain't got no ceilings
Oh please don't aim on me when I'm in your cease
Drowning, drowning, please help me
I know that this

Might break me in pieces
You know that I see it, yeah woah

Cease and desist, woah
Rule out before I dip dip, yeah
Cease and desist, yeah
I don't want no other
Please don't make me say
Cease and desist
Rule out before I dip dip, yeah
Cease and desist, yeah
I don't want no other
Please don't make me say, yeah
