Y'all just want the fame but I'd rather have the money
A broke boy can't take a thing from me
Life a little different when you rich
The check feel good when it hit

First you get the money
The check feel good when it hit
First you get the money
The check feel good when it hit

I don't wanna be nobody else
Don't care about your chain
Give a fuck about your belt
Tell me why your kitchen in your bedroom
Every time I'm on a flight I get that extra leg room
Spacious riding round the hood I'm in a spaceship
This ain't just a rental I ain't cop it with my savings
Mama got a whip too
She get it for free
All my niggas round me gotta eat
I never show it but I'm super dope in real life
Till a nigga call me out and saying drake
Lyrics in they captions
Use to know what being broke felt like
Till I got the money now this life it finally feel right

You tight, I ain't here to fight
Being broke is not as fun don't believe the hype
I don't brag but you got me mad
I rather get a nigga back with all this cash

Y'all just want the fame but I'd rather have the money
A broke boy can't take a thing from me
Life a little different when you rich
The check feel good when it hit

First you get the money
The check feel good when it hit
First you get the money
The check feel good when it hit

You tight, I ain't here to fight
Being broke is not as fun don't believe the hype
I don't brag but you got me mad
I rather get a nigga back with all this cash

Y'all just want the fame but I'd rather have the money
A broke boy can't take a thing from me
Life a little different when you rich
The check feel good when it hit

First you get the money
The check feel good when it hit
First you get the money
The check feel good when it hit
