

I'm in unfamiliar waters
Not your man I can't ignore it
So much time is passing
I don't know my place (but wait)
And I know that you are taken
He's at home while I'm here waiting
For you to come over and tell me about your day (awe babe)

This ain't what you wanted but we calling everyday (yeah)
Texting cause we keep finding each other on the daily
Everytime he asking what is this just saying (I don't know)
Got it feeling like the real thing
But I know we both don't like change (no)
Would you rather stay who we are (that seems so far)

Here we go now take your chances
Saying not right now but here we're standing
I'm can't even lie but I'm afraid just to see how this turns out
I like us the way we are
Bout a million things that could go wrong

Do you wanna play with the balance

I not really saying we should be saying I do
Might not be waiting for me, might not be waiting for you
Something is finally building, I know that we can both feel it
I don't wanna lose the foundation, bringing down the building
The halls in these apartments
Two separate places by walking distance
Going across to him and back to me

Let's be honest baby

We're having a good time but on the low
I don't know how good it feels on our side
We don't have a title, but do you wanna try

I don't know if I can do this everyday
We don't have a title but do you wanna try

Here we go now we're debating
Your relationship is fading
I'm thinking that this could be the real thing
But now there's no desire
What we had is losing fire
I don't think that this is what we want

When we didn't have it
It was feeling all good
Now that we might have it I think we misunderstood
Asking each other what is this (I don't know)

Got me thinking bout the good times when I had to beg you to stay here
But I don't wanna lose my mind (or you)

Here we go now take your chances
Saying not right now but here we're standing

I can't even lie, I'm afraid just to see how this turns out

I like us the way we are
Bout a million things that could go wrong

Do you wanna play with the balance
