Motions

Devvon Terrell

Stuntin' on my ex, girl
Wait 'til you see my next girl
She comin' through when I call
Not stressin' me at all
Sometimes we just wanna be alone
With no friends nor phones (Whoa, whoa)
With the keys to my apartment, yeah
Leveled up on me so fuckin' soon
I know she got somethin' you want
But I told you all the time that I wanted you to just do more for me

No more texts in the mornin', yeah
No home cooked meals in the nighttime, yeah
Had everyday planned out and you went a new route

So we goin' through the motions, yeah
Can you hear me now? (Yeah)
Can you hear me now, right now?
Can you hear me now, right now?
Motion, yeah
Can you hear me now? (Yeah)
Can you hear me now, right now?
Can you hear me now, right now?

You just wanna be independent, yeah
You ain't want to play for a major, yeah
You just wanted me for the labor
Lookin' at me like captain, hold you down now
Look where you are now, yeah
Should've stayed on my team
We could've had a couple rings
True girl got a good job
Everything I do is awesome
That's what I need, a good girl that's just down for me
I know we were close, used to do the most
But a part of me still feels
Like you've got to see just what you lost from me

No more texts in the mornin', yeah
No home cooked meals in the nighttime, yeah
Had everyday planned out and you went a new route

So we goin' through the motions, yeah
Can you hear me now? (Yeah)
Can you hear me now, right now?
Can you hear me now, right now?
Motion, yeah
Can you hear me now? (Yeah)
Can you hear me now, right now?
Can you hear me now, right now?
Motion, whoaa, whoaa
