Oh you know you got me

First be my number one don't be my second
You so fucking bad you need a lesson
Give you everything and that's a blessing
I see something good and I'm invested
I been down this road oh like a 1000 times
And every time I go the wrong way
That's why I'm convincing you to stay
Listen to me when I say
I want need can't find someone like you
You, I do anything to get to you, you
That's why I'm so

Oh you know you got me

I put my phone on silent
Whenever you with me
Do not disturb I want nobody else to hit me
You be the only one I make time for
Breaking all of my laws
Oh I would do time for you
Oh I'm invested
I been down this road like a 1000 times
And every time I go the wrong way
That's why I'm convincing you to say
Please believe me when I say
I want need can't find someone like you
You (yea)
I do anything to get to you
That's why I'm so

Don't play when I work babe
I thought every girl was the same
But the way you move got a nigga
Feeling a way
Baby don't change
I like you the way that you are (whoa)

Don't play when I work babe
I thought every girl was the same
But the way you move got a nigga
Feeling a way
Baby don't change
I like you the way that you are
That's why I'm so
