

No I In Team

Devvon Terrell

Don't want you thinkin' 'bout nobody else
If I'm talking to ya
Low-key I want to let you that I'm trying to pursue ya
You can call me selfish, baby
I'm just tryna get ya
Fucking with a winner, baby
I could never lose ya
I don't even wanna pull out, yeah
That's some shit we can figure out later
I already see where I wanna be
I see you, I see us
Baby, I won't fuck it up

I love all your curves
You always impress me
Know your favorite color
Baby, you can go and test me
Imma hold you down, you gon' lift me up
Wanna take this thing from a to b

There's no I in team
Girl, we could live the dream
There's no I in team
Girl, we could live the dream
But there's no I in team

Go at this alone
It's gonna be harder for ya
Let me hold your head or let me be your shoulder
Let me be your ear, talking non-disclosures
Girl, you know my mode is I would never fuck you over
Unless you like it that way
Taking my time and being patient
Am I talking too much?
Am I not doing enough
Please just me what I need to be on your team because

I love all your curves
You always impress me
Know your favorite color
Baby, you can go and test me
Imma hold you down, you gon' lift me up
Tryna take this thing from a to b

There's no I in team
Girl, we could live the dream
There's no I in team
Girl, we could live the dream
But there's no I in team
