No Shade

Devvon Terrell

These niggas hate it when you with me
Get your ass up in my whip
Oh you wanna play it this way
I'm gonna style on you
I'm gonna style on you
You so use to this this is all I do (yea)
Im about to bring my whole dam crew (yea)
To distract your girls to get to you (yea)
But you so use to this
So I gotta be extra
They'll read all about (yea)
All on your feed but you know that I'm never liking shit
See you in person I'm acting
Brand new like I don't give you them good
Good morning texts to start your day
But you wanna play it this way

I'm losing patience
Make this migration
Send your location (yea)
Why I am waiting
You say you real but wear
Foundation (whoa)

No shade, no shade
Do shit your way
Stay out your way (yea)
No shade, no shade
Do shit your way
Stay out your way

Yea yea yea baby you don't gotta
Front for me (yea)
I know that you be wanting company (yea)
But you want me to work for you
Cause it's so many niggas and I get it
So I'm all on your feed but
You know that I'm never liking shit
See you in person I'm acting
Brand new like I don't give you them good
Good morning texts to start your day
But you wanna play it this way (yea yea)

I'm losing patience
Make this migration
Send your location (yea)
Why I am waiting
You say you real but wear
Foundation (whoa)

No shade, no shade
Do shit your way
Stay out your way (oh na na)
No shade, no shade
Do shit your way
Stay out your way

Yea I'm not trynna play
I can't show all of me if you don't
Meet me half way
To keep it real
I could do better
Send a text like whenever
I dont even gotta go outside
I don't want to stunt on you (yea)
Cut the bullshit
Come thru come thru (yea)
I don't want to get this thing confused (yea)
I don't mean to come off this rude
I mean it when I tell you
This

No shade [x8]
Whoa
No shade, no shade
Do shit your way
Stay out your way
No shade, no shade
Do shit your way
Stay out your way
