

One Dance

Devvon Terrell

Baby, I like it slow

Grips on your waist, front way back way.
You know that I don't play.
Streets not safe, but I never run away, even when I'm away.
OT,OT, there's never much love when we go OT.
I pray we make it back in one piece. I pray, I pray

I don't want nobody in our business, but every time you goin' out that tunne
l I'm prayin nobody get it
Listen to the rhythm of my heart, you're the only reason that it starts and
stops
But every time you leave my heart is always missing beats.
The needle to my record, skip, skippin' and repeat
Our love is like music you playin not movin that's why

That's why I need a one dance
Got a hennessy in my hand
One more time fore' I go
Higher powers takin' hold on me
I need a one dance
Got a hennessy in my hand
One more time fore' I go
Higher powers takin' hold on me

Baby I like it slow, yeah

Baby we can get into a whole lot of trouble
Its a big difference like a pond to a puddle
Us on the same team planning in a huddle when we never dropped the ball it's
like we curry when they double
If I have you here babe
Everything seems so clear aye
I want you to know

Strength and guidance
All that I'm wishing for my friends
Nobody makes it from my ends
I had to bust up the silence
You know you gotta stick by me
Soon as you see the text reply me
I don't want to spend time fighting (we got no time)

I need a one dance
Got a hennessy in my hand
One more time fore' I go
Higher powers takin' hold on me
I need a one dance
Got a hennessy in my hand
One more time fore' I go
Higher powers takin' hold on me

Baby I like it slow [x2]
