

Rollercoaster

Devvon Terrell

You noticing that somethings changing
Tell you that he'll call you back then keep you waiting
Went from chilling with him everyday
To just occasions
Imma keep it real with ya
Homie trynna play with you

And I know that you feel lost
I know
Its hard to start all over
But you can't just stay
And feel like second place
Oh the highs the lows
You on this rollercoaster ride
Oh he made you feel so high
Coming down is easy
Till we chasing on that high again
You don't wanna look down
I'll tell you when its over
Living on his rollercoaster
Coaster

When you come down shorty take time for yourself
Think about how all of this felt
Throw it to the game
You know that you'll never be the same
If you let em back you'll destroy your peace
Don't let em spin the block on you
And shorty if you do then its all on you that's facts
I don't got the answer
Shorty you just gotta get through it

And I know that you feel lost
I know
Its hard to start all over
But you can't just stay
And feel like second place
Oh the highs the lows
You on this rollercoaster ride
Oh he made you feel so high
Coming down is easy
Till we chasing on that high again
You don't wanna look down
I'll tell you when its over
Living on his rollercoaster
Coaster

Find your way don't let him keep you down
All them highs and lows
Have taught you how to smile
All that energy that's bad let's keep it out
Nothings more important than you here right now
