Wouldn't even know you're rich and famous
You move like someone that I just can't touch
I'm curious to know just who you are
Cause girls like you don't exist in these parts

You don't want the drama, you just wanna lay up
Confident up in your skin, ignore the haters
That's why I just think that you're the greatest, oh
Loving who you are, and I like your ways

Girl, you move like Sade
You don't even wanna be famous
You just wanna be low key, yeah
Laying next to me
Oh, you move like Sade
You don't even wanna be famous
You just wanna be low key
Laying next to me
You move like Sa-

I know that you don't need no one saving you
A girl like you is worth all of my patience, oh
I'm curious to know just who you are, yeah yeah
Cause girls like you don't exist in these parts, no, whoa

You don't want the drama, you just wanna lay up
Confident up in your skin, ignore the haters
That's why I just think that you're the greatest, oh
Loving who you are, and I like your ways

Girl, you move like Sade
You don't even wanna be famous
You just wanna be low key, yeah
Laying next to me
Oh, you move like Sade
You don't even wanna be famous
You just wanna be low key
Laying next to me
You move like Sade
