

Sage And Chardonnay

Devvon Terrell

Sex talk we beginning oh where we left off
Lighten that sage let the room breath
Let's let the spirits in the room see
Room see
Let you get your shit off
As I recall this is your day off
You just want god dick and vacations
Talking crazy oh girl I'm flagrant
You know that
I'm better with my hands baby
Instead of my words
Niggas steady talking I'd just rather put in work
Baby fuck a DM I'd just rather do what you say
Wherever I go I bring the dusse

Let's fuck it up
Get in this shower baby hurry up
Tell me baby can we keep it up
Wanna know what's on my mind
But you know that

Baby I don't talk too much
Chardonnay a lil sage
Baby I don't talk too much
I wanna do what you say
I got me a feeling I'm your new bae
She want that
Chardonnay a lil sage
Baby I don't talk too much
I wanna do what you say
I got me a feeling I'm your new bae

I want you to come through oh just vibe on me
Know that you a good girl don't be shy to me
Know there's someone else oh please just lie to me
I don't wanna mess up this mood with you
I just wanna stay in this place with you yea
We can roll up if we drinking to cause
We can use them both just to balance the mood
Cause when you playing catch up it makes the sex better
I'm better with my hands baby instead of my words
Niggas steady talking I'd just rather put in work
Baby fuck a DM I'd just rather do what you say
Wherever I go I bring the dusse

Let's fuck it up
Get in this shower baby hurry up
Tell me baby can we keep it up
Wanna know what's on my mind
But you know that

Baby I don't talk too much
Chardonnay a lil sage
Baby I don't talk too much
I wanna do what you say
I got me a feeling I'm your new bae
She want that

Chardonnay a lil sage
Baby I don't talk to much
I wanna do what you say
I got me a feeling I'm your new bae
