

# Single Friends

Devvon Terrell

You know I'm talking to ya  
When I'm posting on my story  
About these girls  
I'm talking to you  
Can you see me  
And am I crazy  
For assuming that your out  
Her subbing me  
Tell me if I'm bugging

No for real lets just stop playing these games

I want to make this official  
Girl, take your time, take your time with me  
Tell me what to do  
I want to be with you  
You, you...  
And I got something to say

Let's not pretend  
That we can't be no more than single friends  
Single friends  
Let's not pretend  
Not pretend  
That we can't be no more than single friends  
Single friends

I wanna know what you looking for  
You the type I would throw it away for  
I know that they be hating me  
Like why you spending time  
With somebody like me  
Nigga you a munch  
You are not appealing she getting y'all by the bunch  
Imma do her

Right right right right right  
Listen to me shorty

I want to make this official  
Girl, take your time, take your time with me  
Tell me what to do  
I want to be with you  
You, you...  
And I got something to say

Let's not pretend  
That we can't be no more than single friends  
Single friends
