

# Take Me Serious

Devvon Terrell

Want you to take me serious for real  
I want you to see that I've grown up for real  
And I've seen that you've grown up too and  
I feel like now we just know much better  
Can we get it back together together cause

I made my way round  
And I still can't find  
No one like you  
I hate to say it but it's what it took to make me realize  
That you the only one I want here now  
Woo oh oh oh oh

Just take me serious  
I promise I'm someone that you can trust  
I finally just want someone to love  
I know that saying it is not enough  
Just take me serious

I think that you know that I'm being for real  
Now that I've had time to think I've learned to just be chill  
And I know that you've learned that too cause  
I don't want to fight you forever  
So can we get it back together  
Oh I miss you cause

I made my way round  
And I still can't find  
No one like you  
I hate to say it but it's what it took to make me realize  
That you the only one I want here now  
Woo oh oh oh oh

Just take me serious  
I promise I'm someone that you can trust  
I finally just want someone to love  
I know that saying it is not enough  
Just take me serious

I'll never find someone like you  
I'll never find someone like you  
Never never never  
Never never never  
Never never never  
Take me serious  
I promise I'm someone that you can trust  
I know that saying it is just not enough
