

Take You Serious

Devvon Terrell

I'm in trouble again
Told your friends all about me
How you always want to be around me
I ain't fronting cause I feel it to babe
Here we go again and I'm like fuck it, I know you feel it to
This is Adam and Eve and it takes two
Trust me with your heart I run it back
I won't fumble baby, you don't know that

I done made my way round
And I still can't find no one like you
Maybe before I did feel it
But that was some other girl I was feeling
And I learned a thing or two about my feelings from it
Cause baby I done been you

I'll take you serious
I promise I'm someone that you can trust
I finally just want someone to love
I know that saying it is not enough
I'll take you serious

I think that you know that
I'm being for real
Now that I've had time to think
I've learned to just be chill chill chill baby
I'm sounding like a broken record
I'm going in circles
If you was in my position
I'd hope you'd do the same for me cause baby

I done made my way round
And I still can't find no one like you
Maybe before I did feel it
But that was some other girl I was feeling
And I learned a thing or two about my feelings from it
Cause baby I done been you

I'll take you serious
I promise I'm someone that you can trust
I finally just want someone to love
I know that saying it is not enough
I'll take you serious
