

Temperature Alt

Devvon Terrell

Don't wanna go back to my ways girl
This is a warning
Keep waking up next to me
Now I'm feeling like I'm falling
It's fuck with my feelings now
Can't get you out of my head
We was just chilling but now I want
You all the time yea
Woah Woah

You don't gotta worry bout loving me
Do this shit right her no repercussions yea
All I wanna know is that you on your way
Hop in that Lyft or Uber come right now
We went form 3 in the morning to
Spending like 3 or 4 days with
We in LA
And you know we can't stay

It's so hard
To say goodbye
Cause yesterday
We was iffy in your feelings yea
Sick of just playing these games
So I'm checking your temperature

Trynna feel you out while I kick game
G to fast lemme switch lanes
Is she hot
Is she cold
Love me not
Let me know

Trynna feel you out when I kick game
Go to fast lemme switch lanes
Is she hot
Is she cold
Love me not lemme know

It's been a couple years and your shit
Still fire
I keep coming back cause it gets no higher
Chasing these feelings
And you seem to stick
Front of your door and girl I need a fix
I got a problem
I should've never let you stay the first time
Now I'm in your head and your in my bed
I want you to know that

You don't gotta worry bout loving me
Do this shit right her no repercussions yea
All I wanna know is that you on your way
Hop in that Lyft or Uber come right now
We went form 3 in the morning to
Spending like 3 or 4 days with

And you know we can't stay

It's so hard
