

The Mondrian

Devvon Terrell

I know when we started this shit
Baby I made a promise
And I try to keep it a buck but baby I ain't Giannas
Every time that you needed me
Oh I was honest
But I would violate your happiness if I was honest
Know that you angry that shit coming from alot

I love you a lot
Yea Yea
Baby they could try
They can't take my spot yea yea
Know I know you better better than you know yourself
You already exposed yourself

I got a home but sometime I need a hotel
But just know I'm coming back to you
I got a home but sometime I need a hotel
But you know I'm coming back yea
I know you don't wanna go back
I know you don't wanna go back to the streets babe
I know you don't wanna go back
I know you don't wanna go back to the streets babe

I try to be so good to ya
Your friend your lover
Everything between
By now were enemies
It's crazy that the one you would kill for
Also is the one that can kill ya
And I know that shit

I love you a lot
Yea Yea
Baby they could try
They can't take my spot yea yea
Know I know you better better than you know yourself
You already exposed yourself

I got a home but sometime I need a hotel
But just know I'm coming back to you
I got a home but sometime I need a hotel
But you know I'm coming back yea
I know you don't wanna go back
I know you don't wanna go back to the streets babe
I know you don't wanna go back
I know you don't wanna go back to the streets babe
