

Too Late

Devvon Terrell

Something feel different
You hanging out more than you use to
Yea something different
You switching up your routine
I notice you look better than ever

When you go to work you fly
Your hair and nails is did
That perfume that you wearing is some new shit
And every time you step up out this crib
You look excited to go
We need to have a conversation

Fuck is the vibe
Know that it's some other guy
You use to do this with me
I know you better than anybody
You like attention
Wait let me finish
Seen you been ordering clothes
We don't got plans for dinner
Or any vacations
Coming home late and you looking refreshed

You got me so stressed
I'm not surprised
I been falling off

And I know I'm losing you
I know something's off
But I don't know what to do
Is this really something we could fix
Or should we try to go our separate ways
Is it too late
Too late
Too late
Is it too late
Too late
Too late

I can feel your energy
Can't even have a conversation with you
It seems like you just tryna find a way out
Don't drag me through your hell
To get to your heaven
I blame myself cause
I been falling off

And I know I'm losing you
I know something's off
But I don't know what to do
Is this really something we could fix
Or should we try to go our separate ways
Is it too late
Too late
Too late
Is it too late

Too late

Too late

I've been falling off and I know I'm losing you

I've been falling off and I know I'm losing you

I know something's off, but I don't know what to do

Don't know what to do do do do do do do do do

Don't know what to do do do do do do do do do
