

Wasting Your 20s

Devvon Terrell

Please come to your senses
He never gon change he never got love you
Like he should
You so dam defenseless
Know you think your so misunderstood
But really its so simple
If he not fighting for you
Leave him for good
Cause times not on your side, baby
You a grown ass woman
Don't waste your 20s on this fuck guy

But I guess the heart got a mind of its own
You been alone
Nights you laying down in the bed
Wishing for better
And it never comes
Left you for dead
He only calling you when he want you to share a bed now
You got a big ego

20 something
Don't let em take it from you
You better live you fucking life
20 something
Don't let em take it from you
You better live your fucking life

(Oh no no no no
Oh no no no
Oh no no no no
No no no no
No no no no)

You know that your worth more
But nothing ever got change if you
Don't love you like I do
You let him in your temple
But look at all these walls
You can't get through
He keeps it to himself
While you keep giving him more he
Just wanna party and bullshit
Remember
You a grown ass woman
Don't waste your 20s on this fucking guy

But I guess the heart got a mind of its own
You been alone
Nights you laying down in the bed
Wishing for better
And it never comes
Left you for dead
He only calling you when he want you to share a bed now
You got a big ego

20 something

Don't let em take it from you
You better live you fucking life
20 something
Don't let em take it from you
You better live your fucking life

(Oh no no no no
Oh no no no
Oh no no no no
No no no no
No no no no)

20 something
Don't let em take it from you
