

Way Too Much

Devvon Terrell

I been drinking like way too much
I been smoking like way too much
Up in the club like way too much
Oh I been [?] I just wanna turn down
Just need to turn down
Been doing way too much

I been doing way too much
I been hanging 'round a bunch of niggas I would never really trust
I just think I've been caught up in the life
Hanging out in people's cribs that I only met tonight
I'm bugging out
My surroundings are so clouded man
I'm caught up in the culture with Jordan's will make you poppin
Somebody get me out of here
Only culture in the world that be broke and people don't notice man
Is it only me or can you tell me are we talkin bout the same thing
Caught up in the life [?] I'm gonna do the same thing
Pop a hundred bottles in the club
That's the nigga that we wanna be
Ya I been doin way too much, really thinking to myself what got me thinking
this much

I been drinking like way too much
I been smoking like way too much
Up in the club like way too much
Oh I been [?] I just wanna turn down
Just need to turn down
Been doing way too much

Or they ain't doin enough
Ask em the [?]
If I wanna turn down, I put that screw in my cup
Leave here with two in my truck
Ya a few of them sluts
This what its doin to us
This what you do when you up
This what I say when I know I need to stop
Then they say Tray boy you know you bout to pop
Ya pop a bottle, pop a molly, pop a xan, pop her, her, her, and her friend
And my girl say here we go, here we go again
But shawty know I hot
She just waiting on a 10 or [?]
Guess I'm at it again
Pussy making me an addict again
But I fucked and automatically win
Young god why we pray
When they prayin to him
I work it out
I should stay in the gym
Cuz I been feeling like...

I been drinking like way too much
I been smoking like way too much
Up in the club like way too much
Oh I been [?] I just wanna turn down
Just need to turn down

Been doing way too much

Everytime I go up to the sky I feel like I been caught up in the moment ya
Baby don't blow my high
Trying to live this life I'm goin do it
Do the same thing all night
Finally think think its catching up to me ya
I been doing way too much really think to myself what got me thinking this m
uch

I been drinking like way too much
I been smoking like way too much
Up in the club like way too much
Oh I been [?] I just wanna turn down
Just need to turn down
Been doing way too much
