We Used To

Devvon Terrell

I remember when we use to fuck
Get drunk get high
Survive on vibes
We had a good time
When it's both of us
In love no judge
Can tell me what I'm saying is crazy baby

I got a T-shirt that can fit you just fine yea
Imma call your Uber baby girl just take your time
Want you to be your natural self
Don't need no filters or flashes
Cause I already like the way you shine yea

Won't you send a location
Girl let your guard down and let in temptation
I won't say shit
If you show up in pants and sweats I'll take it
I know the vibes
I can make a playlist what you on tonight
I'm missing you because

I remember when we use to fuck
Get drunk get high
Survive on vibes
We had a good time
When it's both of us
In love no judge
Can tell me what I'm saying is crazy baby

I got a feeling that you feel the
Same way that I do
I took you for granted shorty
Now I tell the truth
Know you don't give second chances
When I crashed the landing
I'm picking up the pieces when your back just know

I got a T-shirt that can fit you just fine yea
Imma call your Uber baby girl just take your time
Want you to be your natural self
Don't need no filters or flashes
Cause I already like the way you shine yea

Won't you send a location
Girl let your guard down and let in temptation
I won't say shit
If you show up in pants and sweats I'll take it
I know the vibes
I can make a playlist what you on tonight
I'm missing you because

I remember when we use to fuck
Get drunk get high
Survive on vibes
We had a good time
When its both of us
