

Who Made You

Devvon Terrell

If you got a problem then I got a problem too
If you go left then I'll follow you
You always do right and I know that
Girl you always get the picture like Kodak
Facts, I know that you like the attention
But you don't let it go to your head
I like that, anybody talking shit then you fight back

Whoa, you know they be hating
When they see me doing things for my baby
They see me picking you up, see me showing you love
See me do it with a fucking smile, what
Head on your shoulders, that shit is so rare
Picky with who you surround yourself with
I like that, swimming in your water I don't need a life vest

Drowning in all of you
Girl I think I'm in trouble
Gets no better than you, you
I know that there's nothing that I say
That won't be the truth to you
Can you hear me, and I just wanna know

Girl who made you, just wanna say thank you
You are in control yeah, I just wanna know, wanna know
Girl who made you, just wanna say thank you
You are in control yeah, I just wanna know, wanna know

You say you vibing then I guess I'm vibing too
If you go right then I'll follow you
You always do right and I know that
I'ma say what I feel like Kodak
Facts, there's nothing that you're missing
But don't let it go to your head
Girl you're like that, anybody talking shit oh then you fight back

Yeah, you know they be hating
When they see me doing things for my baby
They see me picking you up, see me showing you love
See me do it with a fucking smile, what
Head on your shoulders, that shit is so rare
Picky with who you surround yourself with
I like that, swimming in your water I don't need a life vest

Drowning in all of you
Girl I think I'm in trouble
Gets no better than you, you
I know that there's nothing that I say
That won't be the truth to you
Can you hear me, and I just wanna know

Girl who made you, just wanna say thank you
You are in control yeah, I just wanna know, wanna know
Girl who made you, just wanna say thank you
You are in control yeah, I just wanna know, wanna know

(Girl who made you, just wanna say thank you

You are in control, you are in control
Girl who made you, just wanna say thank you)
