

The Other Side

Dexter Freebish

It seems a little darker on the other side
And I get a spotlight for some peace of mind
A brand new reflection, another direction
To take my life to the other side
She could melt the sun, she could freeze the moon
If she only wanted to, if she needed to
The world is inviting, yet so paralyzing
She could give me life, yeah

I wanna see you on the other side
I wanna see you on the other side
I wanna see you on the other side
I wanna see you on the other side

I lost myself inside your great divide
A sticky situation I don't seem to mind
A mental uprising is so compromising
I find myself slipping back in time
I'm trapped within your world where all the color swirl
In this universe where you are my girl
Am I just dreaming
Cause everything seems just like paradise?

I wanna see you on the other side
I wanna see you on the other side
I wanna see you on the other side
(Your presence surrounds me
And keeps me from drowning inside the black)
I wanna see you on the other side
(Daylight releases but the brightness
Just keeps me from coming back)

You're scared that I'll forget you, is it true?
Maybe you'll believe me when it's through
Can I prove my feelings for you?
We've got to know straight on through

I wanna see you on the other side
(I wanna see you on the other side)
I wanna see you on the other side
(I wanna see you on the other side)
I wanna see you on the other side
(I wanna see you, yeah, can I see you on the other side?)
I wanna see you on the other side

I wanna see you on the other side
(Your presence surrounds me
And keeps me from drowning inside the black)
I wanna know, can I see you?
(Daylight releases but the brightness
Just keeps me from coming back)
I wanna see you on the other side
Other side
(Your presence surrounds me
And keeps me from drowning inside the black)
I wanna see you on the other side
(Daylight releases but the brightness

Just keeps me from coming back)

I wanna see you on the other side

I wanna see you, I wanna see you

I wanna see you on the other side, on the other side

Can I see...
