

## Listen To This

**Dexys Midnight Runners**

I was thinking of a compromise when  
I saw the beauty in your eyes  
It heightened something in me so I'll say so,  
You were always near to me  
And thoughts of you will stay with me  
Until the day I die

You were standing next to me  
In '82 and '83  
In all that time  
I barely proved I loved you  
Well there's nothing wrong but the wrong in me  
You were everything you were meant to be

Now I just want to say this to you  
Listen to this, listen to this,  
I love you, I love you

Did you know that I loved you  
From the start  
You didn't care about my words  
And why should you?  
You didn't know that all the time I loved you so

I love you, I love you
