

Sometimes there's only  
One helping hand inside those nights  
A song to sing, a page to write  
And I can't let it go

Not Me! Not You!

Can't fight the demons in my head  
Not Me! Not You!

The devil and me, just the only "Us" I live!

I can barely let it flow  
No reason in falling  
A reason to be  
Is more than a feeling  
Bring it on 'till it's over

To Write down this rhyme is  
The only way I know to heal my pain  
A rhythm beats, my heart's on fire  
I can't let it go

Not Me! Not You!

Can't fight the demons in my head  
Not Me! Not You!

The devil and me  
Just the only "Us" I live!

I can barely let it flow  
No reason in falling  
A reason to be  
Is more than a feeling  
Bring it on 'till it's over

Bring peace within me soothing the fears  
Playing neverending music  
Is what I want

There's noway to run  
I can barely let it flow  
No reason in falling  
A reason to be  
Is more than a feeling

Bring it on 'till the end
