

One And Only

dhruv

Oh darling
My words are overflowing
Drenched in new emotion
I gotta to be right where you are
With timing, there's no way of knowing
So I'll steal this moment
To tell you it straight from the heart
Now, where do I start baby?

I've got your favourite song on play
I'm reminiscing on the train
Said I'm a couple stops away

Yeah I'm talking about you
And all that you do for me
Don't wanna play it cool
I wanna be your one and only
I wanna be your one and only

Oh darling
You've held me at my lowest
When every day looked hopeless
You showed me a world through new eyes
And even when we met
It's like we'd already met
Have I said all of this to you in a past life?

'Cause I've got your favourite song on play
Anticipation on the train
Said I'm another stop away

Yeah I'm talking about you
And all that you do for me
Don't wanna play it cool
I wanna be your one and only
I wanna be your one and only

Said you're the one

And every time I say goodnight to you
Goodbye to you
I don't want to go
And I get this feeling
That it's life with you
So I'm waiting outside your door

Yeah I'm talking about you
And all that you do for me
Don't wanna play it cool
I wanna be your one and only
I wanna be your one and only

Your one and only
