

Be Strong

DI-RECT

It's been a long day
Full of dirty looks and pretty smiles
That keeps the world out of harm's way
I need a soulmate
Someone who knows about the ins and outs
And the day the heart breaks
I feel the cold hands
Try to keep me still in
Try to squeeze till I'm frozen to know it
I know the old way's and the times, they change

And the fact that they would never fit together in this moment
Is it all I got?
Give it more than what I think I got this life
It's bigger than my one indifference
Money's in my hands
Hold on with all I got, to be strong

(Be strong) Be Strong
(Hold on) Hold on
I am not the type to sit on the sidelines
This is my life, oh, only more lies baby
Ooh-ooh-ooh
Be Strong
Hold on
I am not the type to sit on the sidelines
This is my life, oh, only more lies baby
Ooh-ooh-ooh

I need a long night
Taste the city life
Everyone is howling under the moonlight
I feel it's my time
Look at the rhythm
And a cherry dancing around in a Mai Thai
I wanna shine bright
Like the solid heavens
All the right impressions
Flowing with motion
I know my heart tied
And they're healing now

Found the way to fit together perfectly in this moment
Is it all I got?
Give more than what I think I got this life
It's bigger than my one indifference
Money's in my hands
Hold on with all I got, to be strong

Be Strong
Hold on
I am not the type to sit on the sidelines
This is my life, oh, only more lies baby
Ooh-ooh-ooh
Be Strong
Hold on
I am not the type to sit on the sidelines

This is my life, oh, only more lies baby
Ooh-ooh-ooh
Yeah

I gotta be strong
Gotta hold on
(Be strong)
Gotta be strong
