

## Come Into The World

DI-RECT

What am I supposed to do today?  
Who am I supposed to be?  
Worry no longer  
I follow every single breath you take  
Full of hope I hope we are  
Making you stronger

You're home free  
In your mother's eyes  
Tears on repeat  
There will be no need for words  
Welcome to your world

I just wanna keep you warm and safe  
Here you will always be surrounded with love  
I'll follow every single step you take  
You can dream or scream for more  
You will never be too much

You're home free  
In your mother's arms  
Tears on repeat  
There will be no need for words  
Welcome to your world

Home free  
There will be no need for words
