

## Free Rider

DI-RECT

You're one knocked down, You wanna get down  
here with your board, feeling great and touching the sky  
making some speed and searching for a rape  
who takes you in the end to the sky, and make tricks while you fly  
so you can feel the adrealine

hey boy, what are we waiting for  
all we need is a parade  
hey boy, still on the floor  
all we need is celebrate

well, seeing is believing , that's one thing you got to understand  
while you make your tricks on your deck  
you got to believe in a god who helps you to the sky  
with you body, you're gonna fly so high  
and you could beat me one more time

so now you're flying with your feet on your deck  
but you gotta make sure that you wont break your neck  
everbody's looking at his tricks in the sky  
but you don't even know how it is to die  
and now you're gonna down, your making that smack  
you break every bone in your body, you bet!  
you think this easy flight, what a bad idea 'cause  
now you're falling and your having some fear

it's a nice afternoon, the sun is shining  
and you're going to your favourite spot to skate  
you're gonna make the best trick ever  
in your whole damn life  
but you fall and you feel the pain  
streaming through  
your whole nice body!!

hey boy, what are we waiting for?  
all we need is a parade  
hey boy, still on the floor  
all we need is celebrate

and now you're gone down, your making that smack  
and you break every bone in your body, you bet!  
you think this easy flight, what a bad idea 'cause  
now you're falling and your having some fear  
counter in the X  
counter in white  
don't know what i'm doing in this hospital bed  
everbody's looking at your tricks in the sky  
but you don't even know how it is till you die!

hey boy, what are we waiting for?  
all we need is celebrate  
hey boy just still on the floor  
yeah yeah yeah yeah yeah yeah
