

# Happy

DI-RECT

Is it empty is your heart?  
Is it filling up your mind?  
Floating through your head  
On and on

Does it make you feel okay?  
Does it make you feel so high?  
High above yourself?  
On and on

Does it make you happy?  
Whenever I'm around  
Don't turn me down  
Don't turn me down

Something you should know  
The cold inside your eyes  
Is freezing me to death, baby

Wrinkles in your face  
Traces left behind  
Leaves a bitter taste  
Oh, oh, oh yeah

There is something I don't like  
It's your attitude  
There is something I don't like

Does it make you happy?  
Whenever I'm around  
Don't turn me down  
Don't turn me down

Does it make you happy?  
Whenever I'm around  
Don't turn me down  
Don't turn me..

There is something I should know, baby

Does it make you happy?  
Whenever I'm around  
Don't turn me down  
Don't turn me down

Does it make you happy?  
Whenever I'm around  
Don't turn me down  
Don't turn me down
