

# I Forget Your Name

DI-RECT

(verse 1)

Don't give in to your fears  
Don't give in to frozen tears  
I said it once  
oooh you said it twice  
It doesn't matter now

get me off this haunted honeymoon  
everything is over all too soon  
I said it once  
oooh I said it twice  
it doesn't matter now

(chorus)

when the lot of day  
finally fades away slowly  
you forget my name  
when you fill the room  
my haunted honeymoon  
slowly  
I forget your name

(verse 2)

How come I get cold when I'm with you  
whenever all I wanted was you  
I said it once  
oooh I said it twice  
It doesnt matter now

(chorus)

When the lot of day  
finally fades away slowly  
you forget my name  
and when you fill the room  
my haunted honeymoon slowly

ooooh

I Forget your name too  
tomorrow is a date too be alive  
just another day to survive

(repeat chorus)
