It Feels

DI-RECT

I'm staring in the distance through the window
Never thought we'd let it come this far oh no

The silence replaced the life we embraced
There's nothing left to say

And it feels
Like we crash and burn
All we need in life
We're so alone

I try to fill the emptiness between us
Baby don't pretend I'm not here oh dear

We're caught in the rain there's no escape
And nothing left to save

And it feels
Like we crash and burn
And all we need in life
Is gone

And it feels
No we can't go on
Cause all we do is cry
My love died

Believe me
We're so lonely
Inside

And it feels
Like we crash and burn
And all we need in life
Is gone

And it feels
No we can't go on
Cause all we do is
All we do is cry
