DI-RECT

I wish to walk through that door
A 'welcome back'
A million smiles of light

Yeah, I'm homesick
For a place I've never been before
Yeah, I'm homesick
For a place I've never been before

Prodigy of memory lane
My déjà vu
Glitch in the brain
Decode my mind
Oh, my open heart, yeah

Yeah, I'm homesick
For a place I've never been before
Yeah, I'm homesick
For a place I've never been before

I'm in no man's land worlds away
You show me where
And I'll be ready to go
Picture the day I leave
Picture no more
I say today
I am on my way
On my way

I'm homesick
For a place I've never been before
Yeah, I'm homesick
For a place I've never been before

Now come and take me away
Come and take me away
Now come and take me away
Come and take me away
Away!
