

With A Little Help

DI-RECT

Why are we running
There's always something
Something that hides under the skin
Trying to break your spirit
They'll keep on coming
But I know one thing
If you don't care, they cannot win
If it don't fit, don't wear it

Anyone could tell you
You're a nobody
But I know nobody is perfect
I'll be in the wind thinking (Ooh)
Life is a breeze
Don't need nothing now
Cause nothing's worth it

With a little bit o' help (Ooh)
In time
All will be more than fine
With a little bit o' help
In time
All will be more than fine

Let's hit the highway
Skip out on the horseplay
Empty your mind, don't look around
It'll just make you dizzy
Jump of the freight train
Who cares it's Monday
Don't get worked up, the world never stops
Trying to keep you busy

Anyone could tell me
I'm a nobody
But I know nobody is perfect

With a little bit o' help (Ooh)
In time
It will be more than fine
With a little bit o' help
In time
We will be more than fine

With a little bit o' help (Ooh)
We will be more than fine
With a little bit o' help (Ooh)

We will be more than fine
(We will be fine)
With a little bit o' help (Ooh)
In time
It will be more than fine
With a little bit o' help
(We will be fine)
It will be
It will be

It will be more than fine
