

# You Know Who I Am

DI-RECT

I don't feel ashamed  
When you dance for me  
All the others say  
Look the other way  
I believe in you  
The way that fools do  
And the ones that pay  
Ooh-ooh-ooh  
Ooh-ooh  
Hey, 'cause I need to know you

You're my lioness In a dark cave  
If you wanna play  
I won't run away  
You can wear me down  
And inside out  
I can only say

I don't like to think there is someone else  
I don't want to share you with no man  
Baby, can't you see there is no one else  
Who knows who I am  
You know who I am

Hey baby, don't go 'cause I need to know you

You are all I want  
In a tight dress  
When you're on the stage  
I'll be here for you  
Ooh, I know it's late  
I don't mind the wait  
Someday you'll know who I am

I don't like to think there is someone else  
I don't want to share you with no man  
Baby, can't you see there is no one else  
Who knows who I am  
You know who I am

'Cause I need to know you  
I need to know  
Do you see me cry  
When I'm waiting outside  
Do you sleep at night  
Come on girl, 'cause I need to know

You're so beautiful  
When you smile at me  
I would never say  
Look the other way  
Take a chance with me  
You're my destiny  
Someday you'll know who I am

I don't like to think there is someone else  
I don't want to share you with no man

Baby, can't you see there is no one else  
Who knows who I am  
You know who I am

Hey! Baby don't go  
Hey! Baby don't go  
'Cause I need to know you  
You know who I am  
You know who I am  
You know who I am  
You know who I am  
You know who I am  
You know who I am  
You know who I am
