

# Flames

Dia Frampton

Every time we get in deep  
Find a way of haunting me  
Tell myself I'll just lay low  
Waking up with you ain't safe  
But I kinda like the chase  
Never knowing where we'll go

If the World burns down tonight  
Watch the flames from way up high  
Falling like a feather, if WE'RE NEVER FOUND  
It's cos we drowned forever  
I don't care if we survive, cos I never felt so alive  
And it's now or never  
If we're going down, we're going down together

If the World burns down tonight  
Watch the flames from way up high  
Falling like a feather, if WE'RE NEVER FOUND  
It's cos we drowned forever  
I don't care if we survive, cos I never felt so alive  
And it's now or never  
If we're going down, we're going down together

Nothing like the way it feels  
Floating FROM the atmosphere  
Every time you're in my head  
Capsized and I'm not afraid  
On fire but I feel OK  
Hanging on the words you SAID

If the World burns down tonight  
Watch the flames from way up high  
Falling like a feather, if WE'RE NEVER FOUND  
It's cos we drowned forever  
I don't care if we survive, cos I never felt so alive  
And it's now or never  
If we're going down, we're going down together

Going down together  
Down together

We're going down together  
Down together
