

Over It

Dia Frampton

oh my (3x)

i got a lot on my mind
i wanna tell you about it
i wanna tell you that i fucked up
I'm gonna tell you the truth
it fits the purple of your eyes
it's gonna hurt for a time
but if you'd hear me out
I'll make it right, oh my

oh my

it's my fault...that you (4x)

it's my fault that you're walkin away
i told you ten times I'm gonna change
i don't blame you thinking I'm full of it
if you let me honey i will become
your safety, shade you, favorite song
i don't need this crazy, 'cause I'm over it
yeah, 'cause I'm over it

and i thought that it would change
but you gave me a reason to stay away
we stay the same
and i think about the fall
you gave me a reason to want it all
we never wait

it's my fault that you're walkin away
i told you ten times I'm gonna change
i don't blame you thinking I'm full of it
if you let me honey i will become
your safety, shade you, favorite song
i don't need this crazy, 'cause I'm over it
yeah, 'cause I'm over it

'cause I'm over it
