You're sweet like honey
Will you whisper to me even softer?
Just one bite of love
You're like a midsummer sherbet

You're so sweet, I'm happy when I see you
I look at you but I never get sick of you
You're so fresh, when you come to me

I softly melt because of you

What's wrong with my lips? I can't say anything
I'm getting nervous, frustrated, going crazy

You're sweet like honey
Will you whisper to me even softer?
Just one bite of love
What do I do? I like you so much

It's electric, will you show me your heart
More refreshingly?
Just one bite of love
You're like a midsummer sherbet

You're so fresh
When you smile at me
Time stops and I freeze
Perfect visuals, you're so great
I can't hold it in anymore

Now tell me, I'm waiting
My heart is pounding, going crazy

You're sweet like honey
Will you whisper to me even softer?
Just one bite of love
What do I do? I like you so much

It's electric, will you show me your heart
More refreshingly?
Just one bite of love
You're like a midsummer sherbet

Softly, softly, you make my heart flutter
From A to Z, from the start to the end
You're so lovable

You're sweet like honey
Will you whisper to me even softer?
Just one bite of love
What do I do? I like you so much

It's electric, will you show me your heart
More refreshingly?
Just one bite of love
You're like a midsummer sherbet
