Daylight, so dazzling
My feet are going somewhere
Today, a good day to leave
Wanna be together?

Hold my hand, follow me
The cool breeze
Take me anywhere

Forget the long days
You and I together
That place is paradise

Step by step, we're getting butterflies
Right here is oh paradise
Each minute and second is like a miracle
Right here is oh paradise

Oh paradise
Oh paradise

Sunshine shines on us
We're gathering it in our arms
So hot, you and me
We're together right now

Your eyes, your lips, a good nervousness
Our shadows are facing each other
Each minute and second is like a miracle
Right here is oh paradise

Oh paradise
Oh paradise

Step by step, we're getting butterflies
Right here is oh paradise
Each minute and second is like a miracle
Right here is oh paradise

Paradise, spread your tired shoulders and run
Throw away your worries, hold my hands
You can call me baby, you and I, maybe
It's only us in this bright light

A thin strand of the wind
I hold in my hand
Our breaths fill up in between
As we become new

Oh paradise
Oh paradise

Your eyes, your lips, a good nervousness
Our shadows are facing each other
Each minute and second is like a miracle
Right here is oh paradise
