□□□□ say hello

Just call my name name name
I'll be right here waiting waiting waiting

Just call my name name name
I'll be right here waiting waiting waiting

Look at me, come to me
Before it gets later, hold me baby
We are just a bit more honest
But I still don't know how you feel

Why does my heart flutter like this?
From my fingertips to my bones, everything goes numb
Only when I see you, I'm nervous
Like a present I've awaited in a secret dream

It's alright, it's alright, really
Always come to me, it's alright
Come back back back
Today and tomorrow (I'll be here my babe)
I can feel you, please come closer to me
Say hello hello hello
Sweetly hello hello hello
To my ears, say hello hello hello
Ooh, baby, call my name
Like magic, I melt down from
Your voice, say hello

Softly come to me and hold me in your arms
You still make me wait for you, you don't really understand
The happy moments I spent with you
Why do I only I remember?

Why does my heart flutter like this?
From my fingertips to my bones, everything goes numb
Only when I see you, I'm nervous
Like a present I've awaited in a secret dream

It's alright, it's alright, really
Always come to me, it's alright
Come back back back
Today and tomorrow (I'll be here my babe)
I can feel you, please come closer to me
Say hello hello hello
Sweetly hello hello hello
To my ears, say hello hello hello
Ooh, baby, call my name
Like magic, I melt down from
Your voice, say hello

Why are you like this?
Have you perhaps changed again?
I can send you away without protests
If you get further for a bit, it's alright
I know that you'll come right back, baby

It's alright, it's alright, really
Always come to me, it's alright
Come back back back
Today and tomorrow (I'll be here my babe)
I can feel you, please come closer to me
Say hello hello hello
Sweetly hello hello hello
To my ears, say hello hello hello
Ooh, baby, call my name
Like magic, I melt down from
Your voice, say hello

Just call my name name name
I'll be right here waiting waiting waiting
