Woo yeah

We're changing a little
What do I do? My heart keeps getting strange
Without knowing, I'm looking in the mirror
Every time I meet eyes with you

I act indifferent as I try to laugh it off
But what do I do? I've fallen for you
I'm making it so obvious again but why don't you know?

Every day, what do we do about us?
Every night, like this, I love you love you
I will tell you my hidden feelings
So will you come hug me?

Every night, hold on, it's about us
Every day, like this, I love you love you
My heart says it has to be you
So we're not friends anymore, it's all for you

You're on my mind, even more
Even sending a single text that I used to send all the time
Now it feels awkward when I send it
So I regret it afterwards

Now that I look at things, we were so stupid
How could we have not known each other?
Slowly, I will show you my heart, love you

Every day, what do we do about us?
Every night, like this, I love you love you
I will tell you my hidden feelings
So will you come hug me?

Every night, hold on, it's about us
Every day, like this, I love you love you
My heart says it has to be you
So we're not friends anymore, it's all for you

Even your playful words
Make my heart flutter now
Every day, it's you
All day, all my actions are for you
Now I'll confess to you

My heart drops
Whenever I see you
Feels like
I'll just suddenly hug you
Do re mi fa so la ti do
My mood goes up with the notes
So high so fly
I'm shouting at you, Hi

Every night, hold on, it's about us
Every day, like this, I love you love you
My heart says it has to be you
So we're not friends anymore, it's all for you

Woo yeah
